

## THE HEART OF SILICON VALLEY

Adjacent to Levi's Stadium and the Santa Clara Convention Center, at the nexus of various public transportation options and major arteries, Related Santa Clara is a dynamic 240-acre mixed-use development. It will contribute more than nine million square feet of innovative, sustainable and tech-enabled commercial and residential spaces, hotels, shopping, dining and entertainment venues to Santa Clara and the heart of the greater Silicon Valley region. The development will also bring expansive public open spaces, and a 35-acre park for fitness and recreation.

Foster + Partners will serve as the lead design architect for the first phases of the project, and will collaborate with Gensler, the executive architect, on many aspects of the design and execution. Together, along with Related Companies, these premier architectural partners will deliver the first mixed-use development in Silicon Valley to offer the scale of an urban destination and the variety of choices that support all facets of life — in one integrated pedestrian community. Langan will serve as the development's lead engineering firm on the main infrastructure of the project.

The Related Santa Clara development is the result of a multi-year, forward-thinking public-private partnership between the City of Santa Clara and Related Companies to transform an underutilized golf course into a world-class destination for residents, visitors, companies and their employees. Additionally, Related will be developing 15 acres of the adjacent 40-acre Tasman East neighborhood. Together, the Related Santa Clara and Tasman East projects will bring 6,180 units in much needed housing — all within easy walking distance to the multi-use project; Related Companies will be specifically overseeing the development of 3,280 residential units.

When complete, the property will feature a compelling mix of uses and expansive public spaces, expertly integrated into the city's existing network of pedestrian, bicycle and public-transit connections. The development will also feature new roadways and access upgrades to public transit to make the project one of the premiere urban mixed-use destinations in Silicon Valley.

## **A PARTNERSHIP THAT BENEFITS THE COMMUNITY**

Related Santa Clara will be an economic engine for the city and the region, generating 25,000 jobs; nearly \$21 million in taxes, fees and lease revenue annually; plus, millions more for schools and transportation improvements.

## **CENTRALLY LOCATED**

The property enjoys proximity to a variety of local and regional public transit options and alternative transportation modes, including VTA with connections to BART and Caltrain, as well as commuter rail service and a commuter shuttle program.

## **AUTHENTICITY**

Reflecting the local culture, lifestyle, and natural landscape of Northern California, the development will showcase the area's diversity and affinity for multi-ethnic and multi-cultural experiences, as well as cater to the local community's desire for gastronomic novelty and native cuisines.

## **INNOVATION**

Creating a stimulating workplace environment that allows companies to disrupt their respective industries, Related Santa Clara will be the new center of cutting-edge technology in Silicon Valley. With an investment in the future of mobility, the project will embrace technology across Santa Clara through data management, public wi-fi, and Smart Meters.

## **SUSTAINABILITY**

The development will be at the forefront of sustainability with buildings designed to reach LEED Gold-ND certification, transformative mobility and a "smart" development.

## **OUTDOOR LIFESTYLE**

The development will capitalize on the adjacent waterways, bike trails, and hiking paths, seeding the project perimeter with retail, open space and public parks.

## **URBAN LIVING**

Related Santa Clara is a community with the connectivity and easy accessibility of an urban environment — a pedestrian place with a main street experience and an opportunity to enjoy the outdoors.

- Related Santa Clara will have three primary components: a 5.2M square foot city center, 4.0M square feet of office campus area, and a 35-acre park. The central part of the development will feature the project’s restaurant, retail, and entertainment space, and will serve as the main gathering place for visitors, shoppers, and workers.
- The large scope of the project allowed the design team to create an ambitious, environmentally sound masterplan that pioneers several design initiatives to promote wellbeing, sustainability and future mobility solutions. The design also utilizes sustainable building materials, creating a model of urbanism that exceeds present green building guidelines.
- Located in a transit-rich area just north of Levi’s Stadium, the development provides access to a robust network of transit options, conveniently accessible from anywhere within the project.
- The first phases of early site work for this fully-entitled project have begun, with vertical construction starting in 2022. The first phases are scheduled to open to the public in 2024.
- Related Santa Clara will generate 25,000 jobs; nearly \$21 million in taxes, fees, and lease revenue annually at the beginning of project operations; plus, millions more for schools and transportation improvements.
- The centerpiece of the project’s expansive green network is the new city park; 35-acres of land earmarked for the creation of a new open green space. Related will make a \$5 million contribution to the City of Santa Clara to help finance the design and construction of this new outdoor space.
- A new Transportation Demand Management (TDM) Plan will be implemented to incorporate the use of local and regional transportation options, as well as adopt forward-looking approaches such as private shuttles, ridesharing options and bicycle support facilities.
- Related Santa Clara will provide nearly 170 affordable housing units.
- Since its introduction in 2013, the project has held dozens of meetings with the community, and completed a thorough Environmental Impact Report (EIR) that involved the review and feedback of multiple local, regional and state agencies.

### **ABOUT RELATED COMPANIES**

Related Companies is a global real estate and lifestyle company defined by innovation and the most prominent privately-owned real estate firm in the United States. Formed over 45 years ago, Related is the largest private owner of affordable housing and a fully-integrated, highly diversified industry leader with experience in virtually every aspect of development, acquisitions, management, finance, marketing and sales. Headquartered in New York City, Related has offices and major developments in Boston, Chicago, Los Angeles, San Francisco, South Florida, Washington, D.C., Abu Dhabi and London, and boasts a team of approximately 4,000 professionals. With over \$60 billion in assets owned or under development including the 28-acre Hudson Yards neighborhood on Manhattan's West Side, The Grand and Related Santa Clara in California and The 78 in Chicago. Related was recently named to Fast Company Magazine's list 50 Most Innovative Companies in the World.

For more information about Related, please visit [www.related.com](http://www.related.com).

### **FOSTER + PARTNERS**

The global studio for architecture, urbanism and design, rooted in sustainability, was founded over 50 years ago in 1967 by Lord Norman Foster. Since then, he and the team around him have established an international practice with a worldwide reputation for thoughtful and pioneering design, working as a single studio that is both ethnically and culturally diverse. The studio integrates the skills of architecture with engineering, both structural and environmental, urbanism, interior and industrial design, model and film making, aeronautics and many more — the collegiate working environment is similar to a compact university. These diverse skills make the team capable of tackling a wide range of projects, particularly those of considerable complexity and scale.
